

Free Breakfast & Summer Food Program Availability

The Free Breakfast & Summer Food Services Programs were created to ensure that children in lower-income areas can continue to receive nutritious meals during long school vacations when they do not have access to the National School Lunch or School Breakfast Programs. This is also known as Meet Up and Eat Up and is operated at the local level by program sponsors and is administered in Michigan by the Department of Education (MDE) Office of Health and Nutrition Services.

How to Find a Meet Up and Eat Up Site
